GO4GREEN INTRODUCTION

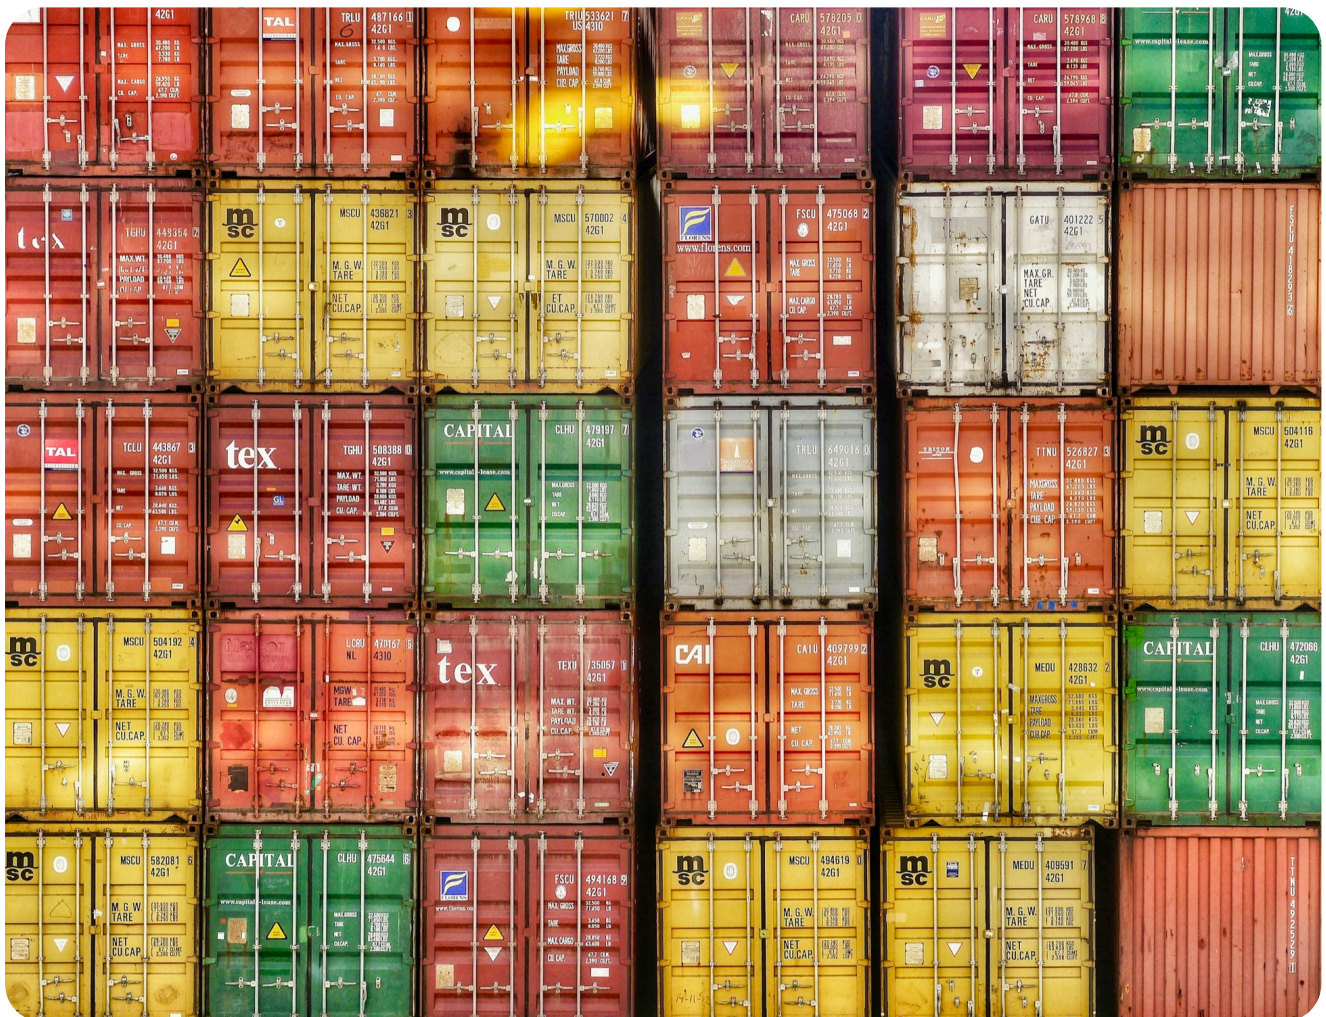

Your international business and supply chain partner

International business requires more than finding a supplier or arranging a shipment. It requires coordination, communication, documentation, logistics, and reliable execution.

GO4GREEN brings these capabilities together through its operations in China, Dubai, and Pakistan.

Our group companies support customers with:

- International trading
- Global sourcing
- Procurement
- Freight and logistics
- Import and export support
- Cargo consolidation
- Supplier coordination
- Supply chain solutions

GO4GREEN

WHO WE ARE

GO4GREEN is an international business group focused on trading, sourcing, logistics, and supply-chain solutions.

With operations across China, Dubai/UAE, and Pakistan, the group is positioned to connect suppliers, manufacturers, traders, importers, exporters, and customers across international markets.

Our objective is to simplify the process of doing business across borders by bringing multiple services and market connections together.

What we do

GO4GREEN operates across three core business areas:

01

Trading

International buying, selling, import, export, distribution, and commercial trade.

02

Sourcing

Supplier identification, product sourcing, procurement, supplier coordination, and factory communication.

03

Logistics

Freight forwarding, cargo coordination, consolidation, shipment management, and logistics support.

OUR MISSION

Making global trade simpler

Our mission is to provide reliable and coordinated solutions that help businesses source products, manage international trade, and move goods efficiently between markets.

OUR VISION

Building connections across global markets

We aim to develop a trusted international network connecting suppliers, businesses, logistics partners, and markets across Asia, the Middle East, and beyond.

OUR CORE VALUES

01

Integrity

We believe in transparent and professional business relationships.

02

Reliability

Our goal is to provide consistent coordination throughout every transaction.

03

Customer focus

We develop solutions around customer requirements.

04

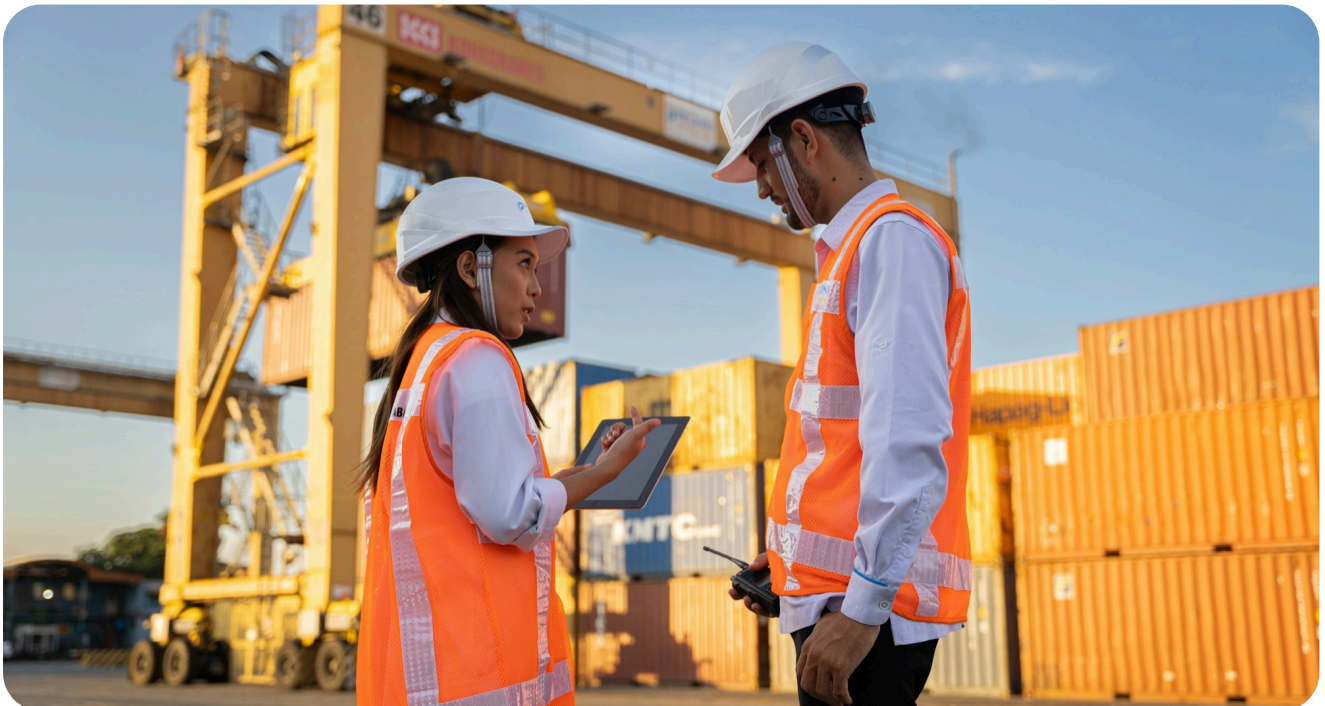

Global connectivity

We connect businesses with international suppliers, markets, and logistics networks.

05

Long-term relationships

We focus on building lasting relationships with customers, suppliers, and business partners.

OUR SERVICES

Eight integrated services

How GO4GREEN works

OUR SERVICES

GO4GREEN provides integrated international business and supply-chain services.

01 International trading

We support international buying, selling, import, export, procurement, and commercial trading activities.

02 Global sourcing

We help businesses identify products, suppliers, manufacturers, and procurement opportunities across international markets.

03 Procurement

From supplier communication to order coordination, we help manage purchasing requirements.

04 Freight and logistics

International cargo movement through sea, air, FCL, LCL, and other logistics solutions.

05 Cargo consolidation

Coordination of cargo from multiple suppliers where consolidation is appropriate.

06 Supply chain solutions

Integrated support connecting sourcing, procurement, logistics, and delivery.

07 Supplier coordination

Communication and coordination between international buyers and suppliers.

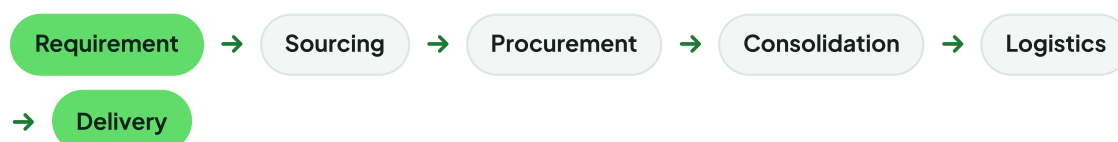

08 Import and export support

Support for businesses managing international trade and shipment requirements.

HOW GO4GREEN WORKS

- 01 Tell us your requirement**
Provide details about your product, quantity, destination, budget, cargo, or business requirement.
- 02 Understand the requirement**
Our team reviews your requirements and identifies the relevant GO4GREEN company or service.
- 03 Source or plan**
For sourcing requirements, we identify potential suppliers. For logistics requirements, we review cargo and shipping requirements. For trading requirements, we review the commercial requirement.
- 04 Coordinate**
We coordinate with suppliers, customers, logistics partners, and other relevant parties.
- 05 Procurement or shipment**
Orders are coordinated and cargo is prepared for transportation.
- 06 Logistics**
The shipment is coordinated through the appropriate freight and logistics solution.
- 07 Delivery**
Cargo reaches the agreed destination through the selected logistics arrangement.

One connected **process**

GO4GREEN China Trading

GO4GREEN Pvt. Ltd.

UNITED ARAB EMIRATES HEAD OFFICE, DUBAI

GO4GREEN Dubai Trading

Connecting international trade through the UAE

GO4GREEN Dubai Trading operates as part of the group's UAE trading network, supporting businesses involved in international sourcing, procurement, import, export, and distribution.

Dubai's position as an international commercial hub provides connectivity between Asia, the Middle East, Africa, and international markets.

OUR TRADING SERVICES

- International trading
- Import and export
- Product sourcing
- Bulk procurement
- Supplier coordination
- Commercial distribution
- Regional market supply
- Trading support

HOW WE SUPPORT TRADE

International trading

We support businesses involved in buying and selling products across international markets.

Regional distribution

The UAE can serve as an important base for businesses looking to distribute products into regional markets.

Sourcing and procurement

Our Dubai operation can coordinate with the wider GO4GREEN network, including China sourcing and logistics capabilities.

UNITED ARAB EMIRATES HEAD OFFICE, DUBAI

GO4GREEN Dubai Logistics

Your logistics connection through Dubai

GO4GREEN Dubai Logistics provides freight and cargo coordination through Dubai and the wider UAE.

We support businesses moving goods through one of the world's important international commercial and logistics hubs.

Sea freight

International ocean freight solutions for commercial cargo.

Freight forwarding

Coordination of cargo movement from origin to destination.

Import logistics

Coordination of inbound cargo and related logistics requirements.

Warehousing coordination

Coordination of storage and cargo handling requirements through suitable logistics partners.

Air freight

Air cargo coordination for time-sensitive shipments.

Cargo consolidation

Support for combining shipments where appropriate.

Export logistics

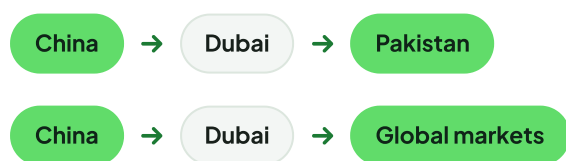

Support for businesses shipping goods from the UAE to international markets.

Documentation support

Coordination of required shipment and commercial documentation.

CHINA, DUBAI AND PAKISTAN CONNECTION

Our group structure enables coordination between our China, UAE, and Pakistan operations.

CHINA EAST ASIA

GO4GREEN China Logistics

Moving cargo from China to global markets

GO4GREEN China Logistics provides logistics and freight coordination for businesses importing products from China and exporting goods to international destinations.

Our China operation supports customers with shipment planning, cargo consolidation, freight coordination, export logistics, and documentation support.

Sea freight

Solutions for businesses moving commercial cargo by sea, including full-container and consolidated shipments.

LCL: less than container load

Cargo consolidation for smaller shipments that do not require a full container.

Cargo consolidation

We coordinate cargo from multiple suppliers where appropriate and prepare shipments for international transportation.

Warehouse coordination

Support with receiving, storage, consolidation, and preparation of cargo for shipment.

FCL: full container load

Container shipping solutions for customers with sufficient cargo volume for dedicated containers.

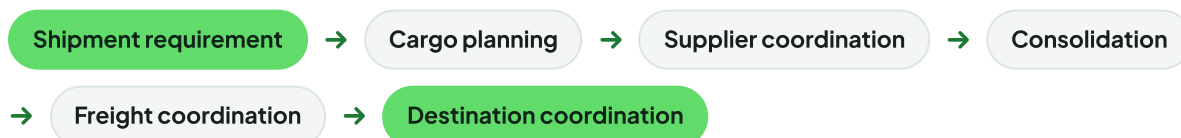

Air freight

Air cargo solutions for time-sensitive and high-priority shipments.

Export logistics

Coordination of cargo preparation, supplier communication, documentation, and shipment arrangements.

OUR PROCESS

Have cargo in China? Send us your shipment details and let our team discuss the available logistics options.

CHINA EAST ASIA

GO4GREEN China Trading

Your connection to Chinese suppliers and products

GO4GREEN China Trading helps international buyers identify products and suppliers in China and coordinate purchasing requirements.

We support businesses that want to source products from China without having to manage every stage of supplier communication and procurement themselves.

Product sourcing

We assist customers in identifying products and potential suppliers based on their specifications.

Supplier coordination

Our team can coordinate communication between buyers and suppliers.

Product procurement

We coordinate purchasing requirements between the buyer and selected supplier.

Sample coordination

Samples can be coordinated for customers who need to evaluate products before larger orders.

OEM and private label

We can support customers exploring customized products, packaging, branding, and OEM/private-label requirements, subject to supplier capabilities.

Supplier identification

We help identify suitable manufacturers, wholesalers, and suppliers according to product requirements.

Price negotiation

Where applicable, we support commercial discussions regarding pricing and purchasing terms.

Factory coordination

For suitable requirements, we can coordinate communication with manufacturers and factories.

Quality inspection coordination

Where required, inspection arrangements can be coordinated before shipment.
